THE LIBERTY HOUSE

HONOLULU, HAWAII

Do not fail to complete your Liberty Bond payments is the appeal of Secretary of the Treasury William G. McAdoo, as sent to Twelfth Federal Reserve District Liberty Loan headquarters.

Following is the secretary's appeal: "Many employers throughout the country have rendered most patriotic assistance in the distribution of Liberty Loan bonds to their employees and have assisted them in the purchase of these bonds by arranging that payments may be made in installments covering a period of time longer than that which could be granted by the Treasury Department.

"It is the duty of the subscribers to bonds on these partial-payment plans to complete the contract into which they have entered. If they do not do so, both they and the Government suffer, as the bonds for which they have contracted and for which

they do not pay in full must usually be sold in the open market. "It is, of course, recognized that in case of necessity caused by sickness or other unavoidable circumstances, cancellations of subscriptions or sales of bonds are warranted. In cases where employees have made arrangements to purchase these bonds on the installment plan and then sever their connection with the employer with whom they have made subscriptions,

arrangements should be made for the completion of the subscription or for having the subscription taken over by the new employer or by a bank in the community where the subscriber resides, thus avoiding the necessity for sale of the bonds covered by the subscription."

The Olia Paper Mill is now practically completed and will soon begin the manufacture of a coarse grade of paper from mill trash and field refuse. The mill will have a capacity of sixteen and a half tons a day. This paper is somewhat like building paper, and will be made in rolls suited to the width of the rows. It will first supply the needs of Olia, and then the demands of other places. The paper, as is pretty generally known, is for mulching purposes, to cover the rows, and keep down the weeds as well as retain the rain and moisture.

If it proves a practical success, in economy as well as efficiency, it will no doubt be generally adopted. The Olia factory will cost about \$200,000.

Mrs. H. H. Brodie and son returned to Kauai by the Kinau Friday morning. Mrs. Brodie has been away from the Islands for a year or two, during part of which she has been quite ill.
